

Dramatically improve your labeling supply chain with MICROLINER® thin-film liner labels

...using ultra thin-film liner

The benefits of MICROLINER® speak for themselves...
Why choose conventional?

80%
reduction in liner waste
*helps achieve sustainability goals
and reduces disposal costs*

30-100%
more labels on a roll
*fewer roll changes increase
label applicator up-time and
increase operator productivity*

Eliminate
web breaks

*ultra-thin PET liner and patented
process makes deep die cuts
and adhesive ooze a thing of the past*

More
\$
toward your
bottom line

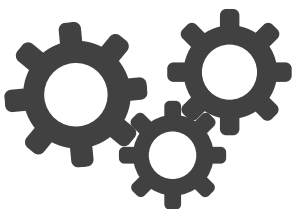

15-50%
lower transportation costs
*fewer rolls translate into less freight
charges, warehouse storage space
and employee handling*

Why Work with Outlook Group?
